

**STRATFORD  
SCHOOL**

# Mandarin Bilingual Preschool Stratford中文双语幼儿园

## Coming to Stratford School

We are pleased to announce our **Mandarin Bilingual Preschool Program** designed to give your little one an exciting early start in school.

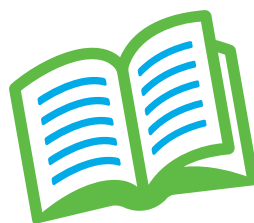

## Why Mandarin Bilingual Preschool?

- As the most widely spoken language in the world, Mandarin continues to gain relevance on the world stage.
- Preschool children readily absorb another language, particularly when instructed in an organic bilingual environment.
- Multilingual children gain a cognitive, academic, and social edge in academic settings and beyond.

### Fast Facts about the Mandarin Program

- It is offered at both the Altadena and Los Angeles campuses starting this 2019/2020 school year.
- This immersive five-days per week program is designed to promote consistency and continuity.
- Stratford's same rich Preschool curriculum is taught by a two-teacher team, one speaking and instructing in Mandarin, and the other in English.

## BILINGUAL BENEFITS

Bilingual children gain a cognitive, academic, and social edge over monolinguals.

Learning another language promotes positive cross-cultural attitudes, behaviors, and friendships.

Advanced knowledge of more than one language is crucial in today's multilingual, multicultural world.

**For more program information, contact the campus:**
