A Place to Grow:

Where learning continues beyond the school day

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

Extended Day

Our Extended Day program allows busy working families the flexibility to drop-off before the school day starts and pick-up after the normal dismissal time. Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills, and to reinforce the skills they're learning during the school day, while providing plenty of time for fun with friends.

Program Details:

- After school hours: 3:15 pm - 6:00 pm
- Dedicated and specially trained staff members with experience in working with children
- Students remain on campus
- Student are offered time to work on their homework
- STEAM and art activities

Clubs & Enrichment

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

Program Details:

- Hours: Varies by Club (refer to club details)
- Dedicated and specially trained staff members in specialty areas
- Variety of different options for your child to explore new interests

Extended Day

Extended Day

Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Students develop planning skills by working on long-term projects with their peers and can participate in group performances or discussions.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

Bow to Strings

This is an innovative music educational program that combines small group lessons with orchestra experience, created by Samuel Boruszko (Mr. Sam) - a former conductor and founding member of the renowned Simón Bolívar Symphony Orchestra, as well as a professional violin and viola player. Our program was inspired by Mr. Sam's many years of orchestral experience. He noticed students and even professional musicians improved faster while playing with other musicians. Playing and learning instruments in a group environment is not only fun, it effectively enhances skills like sight-reading, ear training, sense of musical timing and tempo etc. Students learn to play instruments with peers, besides getting personal attention from the teacher. Tuition includes instruments and materials - violins are provided with no additional charge! (Consent forms must be signed before taking our violins home.) Each group has limited space, sign up today!
