Fall 2025

A Place to Grow:

Where learning continues beyond the school day

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

Extended Day

Our Extended Day program allows busy working families the flexibility to drop-off before the school day starts and pick-up after the normal dismissal time. Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills, and to reinforce the skills they're learning during the school day, while providing plenty of time for fun with friends.

Program Details:

- Hours: 3:30pm – 6:00 pm
- Dedicated and specially trained staff members with experience in working with older children.

Clubs & Enrichment

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

Program Details:

- Hours: Varies by Club & Enrichment
- Dedicated and specially trained staff members in specialty area.
- Trusted Third Party providers in subject specific areas!

Extended Day

Extended Day

Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Students develop planning skills by working on long-term projects with their peers and can participate in group performances or discussions.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

Intro to Public Speaking

This introductory public speaking program helps students practice the fundamentals that every child needs in order to communicate effectively — whether on the playground, in a classroom, or on the stage. Some of the skills we practice:

Posture, Speaking clearly and with expressiveness, Making conversation.

The program rotates to a new focus roughly every 10 weeks. Each 10-week term features a mini-presentation halfway through the term and ends with a creative project and presentation. The program requires some basic reading/writing skills, although for younger students we focus on in-class activities rather than handouts or written assignments.

Little Instrument Makers

In Little Instrument Makers, kids become both musicians and inventors as they explore the science and art of sound. Each week, students will build real, working instruments—like shakers, tambourines, xylophones, pan flutes, and kazoos—using everyday materials. Then they'll bring them to life by learning rhythms, composing simple songs, and performing with classmates. This program blends music, science, and creativity to build foundational skills in rhythm, melody, and performance—no prior experience needed. Note: This is a hands-on, project-based class focused on making and playing music—not formal theory instruction..

Mandarin Heritage Level 1

Chinese Heritage Classes are designed for students who speak Mandarin at home and want to improve their Chinese language skills. Classroom instruction is mainly delivered in Mandarin Chinese and students are asked to speak Chinese during class. Class instruction includes all four language skills (listening, reading, speaking and writing), with an emphasis on reading comprehension, character reading and character writing (radicals and stroke order). Students learn about 130 new phrases in each level. Each lesson also covers several sentence structures/grammar points. Students will practice using those learned phrases and sentence structures in sentence making and for oral communication. Mandarin Language and Cultural Center is a Chinese heritage school established in 1997, providing Chinese language and culture classes to more than one thousand students each year.
