Fall 2025

A Place to Grow:

Where learning continues beyond the school day

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

Extended Day

Our Extended Day program allows busy working families the flexibility to drop-off before the school day starts and pick-up after the normal dismissal time. Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills, and to reinforce the skills they're learning during the school day, while providing plenty of time for fun with friends.

Program Details:

- Hours: 3:30pm – 6:00 pm
- Dedicated and specially trained staff members with experience in working with older children.

After School Clubs

Our After School Clubs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

Program Details:

- Hours: Varies by Club & Enrichment
- Dedicated and specially trained staff members in specialty area.
- Trusted Third Party providers in subject specific areas!

Extended Day

Extended Day

Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Students develop planning skills by working on long-term projects with their peers and can participate in group performances or discussions.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

Clubs & Enrichment

Yes for Chess

Join our chess class, open to all skill levels! Whether you're new to the game or have some experience, our sessions cover everything from the basic rules, fun tactical puzzles, check matting patterns and end games. Plus, every fourth week, we spice things up with a fun chess variant to keep the learning experience fresh and exciting! Returning students are always welcome to join in on the fun. We're all about keeping chess enjoyable and sharing our love for this ancient game. Come and discover the world of chess with us!

Grades: TK – 2G

Day Offered : Friday

Weeks Offered : 10 weeks (9/12/25 – 12/12/25)

Time: 3:30 – 4:30 p.m.

Cost: \$270

Mad Science – Crazy Chemworks

In this program, children make gooey slime, experiment with different reactions and learn to use the tools that chemists use. Polymers and catalysts are only two of the fascinating concepts young scientists explore in this thrilling trip through the chemistry lab! At the end of every class, they take home an educational toy that extends the learning experience!

Grades: 1G & 2G

Day Offered: Tuesday

Weeks Offered : 12 (9/9/25 – 12/9/25)

Time: 3:30 – 4:30 p.m.

Cost: \$360

Instructor: Mad Science of the Bay Area
